## **DAKOTA BACKUP, LLC SELECTS COSENTRY AS REDUNDANT DATA CENTER LOCATION**

Sioux Falls, SD- Today, Dakota Backup, LLC announced its agreement to use CoSentry’s Sioux Falls, SD data center as the backup data center for its offsite data backup service. A company spokesman stated this action underscored its commitment to provide the highest quality of service possible for its clients.

“We needed a solution that would ensure our clients’ data would be backed up to a redundant location which offered us the highest quality of service that merges with our commitment to meeting industry related compliances.” commented Brian Wiedmeier, General Manager for KT Connections, Inc.

Under the agreement Dakota Backup, LLC will use the CoSentry data center in Sioux Falls, SD as its alternate data center facility to which they will replicate their customer’s offsite backups. This is a service CoSentry performs for a number of clients in the Fortune 100 community.

“We recognized the need for Dakota Backup to provide clients with superior data-availability.” related Jon Fradet, Solutions Consultant for CoSentry, “CoSentry looks to add value in each client with whom we do business and we consider Dakota Backup to be the premier partner in providing businesses in the region, as well as on a national level, with a crucial value added service.”

CoSentry’s Sioux Falls facility has seen 100% growth in 2008. The city of Sioux Falls was selected by the Boyd Company, a leading consulting organization, as the top location in the U.S. to build a data center.

### About Dakota Backup, LLC
