## **POWERDNN EXPANDS NETWORK INFRASTRUCTURE TO SUPPORT LAUNCH OF DOTNETNUKE® PROFESSIONAL EDITION**

Omaha, Ne- Today, PowerDNN announced that a major expansion of their network infrastructure to support launch of the new Dot Net Nuke Professional Edition has been completed. The design, which uses critical components of the CoSentry Resiliency Network, raises the PowerDNN data center to the highest formal criteria in the industry.

“By making this investment with CoSentry, we wanted to express our thanks to the thousands of clients who have entrusted their business to us and the many companies who will be joining us due to the release of the DNN® Professional Edition. This investment significantly upgrades our infrastructure and extends our commitment within the CoSentry network. Our clients are now protected by the finest in N+1 reliability in power, environmental, security and network design,” explained John Grange, Executive Vice President & COO for PowerDNN. “This is what the industry and the community has been requesting for years” added Tony Valenti, President & CEO. “We are very appreciative of the dedication John and his team has demonstrated and of the highly professional cooperation and support of CoSentry,” he continued.

The new infrastructure will allow PowerDNN to grow unimpeded and will assist in maintaining a very competitive economy of scale, an advanced capabilities platform and assure the security of operations. Multiple access points to the power grid, redundant distribution units, backup generators and multi-Gb/multi-fiber network paths insure the best possible environment for data transfer and storage.

“We are pleased to be part of the strong evolution of the PowerDNN network. They add a special value to the community they serve and have demonstrated a unique ability to capitalize on technology and market trends,” commented Rod Peterson, Sr. Solutions Consultant, CoSentry. “I am also pleased to see their readiness for the next tier of growth. Their trajectory is assured,” he continued.

PowerDNN indicated that they have proactively purchased an inventory of Professional Edition licenses in

anticipation of demand and will provide information to anyone seeking answers to tough business questions.
